

Scientific References for:

The New Becoming Vegetarian by Vesanto Melina and Brenda Davis, The Book Publishing Company, 2003

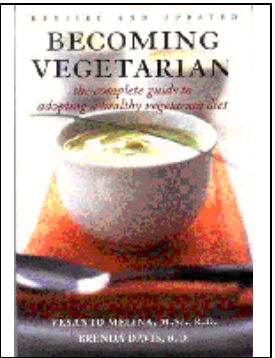

and for:

Becoming Vegetarian by Vesanto Melina and Brenda Davis, Wiley Canada, 2003.
(Canadian edition of the same book)

As the list of scientific references for *The New Becoming Vegetarian* and *Becoming Vegetarian* is so extensive, it was not possible to include these in the book itself. However we are pleased to make this reference list available to you in this pdf file.

The first section includes references used for the whole book. References for specific sections follow, listed by chapter.

General References for Whole Book

Chapter 1. Why Be Vegetarian?

Chapter 2. Maximizing the Vegetarian Advantage

General
Heart Disease
Cancer
Diabetes
Kidney Disease
GI Disorders
Gallstones
Arthritis
Dementia

Chapter 3. Power from Plants...legumes, nuts, and seeds

Protein
Iron and Zinc

Chapter 4. Bone Boosters...milks, greens and other calcium champions

Calcium and Vitamin D

Chapter 5. Energy Plus...goodness from grains

Chapter 6. Perfect Protectors...vegetables and fruits

Chapter 7. Fat Feuds...who's winning?

Chapter 8. Fine Tuning the Vegetarian Diet....vitamin B12.

Vitamin B12
Iodine

Chapter 9. Designing the Diet... the Vegetarian Food Guide

Chapter 10 Vegetarian for Life

Pregnancy and Lactation
Infancy and Childhood
Adolescence/Teens

Chapter 11. Vegetarian Victory Over weight
